

Management Accounting (FMA/MA)

Course map

ACCA

Think Ahead

Section 1

Introduction to management accounting

Lesson 1: Management information

Welcome

- Unit 1: Cost and management accounting
- Unit 2: Planning, decision making and control
- Unit 3: Data and information
- Unit 4: Sources of data and information
- Unit 5: Sources of data: machine, transactional and human
- Unit 6: Direct vs indirect data capture costs
- Unit 7: Attributes of good information
- Unit 8: Big data and data analytics
- Unit 9: Limitations of management information

Summary and apply your learning

Lesson 2: Materials

Welcome

- Unit 1: Documentation and accounting procedures
- Unit 2: Accounting for inventory
- Unit 3: Valuing inventory

Summary and apply your learning

Lesson 3: Reordering materials

Welcome

- Unit 1: Inventory holding costs
- Unit 2: Economic Order Quantity (EOQ)
- Unit 3: EOQ with discounts
- Unit 4: Economic Batch Quantity (EBQ)
- Unit 5: Reorder levels

Summary and apply your learning

Lesson 4: Labour

Welcome

- Unit 1: Direct and indirect labour
- Unit 2: Recording labour and the labour account
- Unit 3: Remuneration methods
- Unit 4: Labour turnover
- Unit 5: Labour ratios

Summary and apply your learning

Lesson 5: Overheads

Welcome

- Unit 1: Direct and indirect expenses
- Unit 2: Allocation and apportionment
- Unit 3: Reapportionment
- Unit 4: Bases of absorption and overhead absorption rates
- Unit 5: Under and over absorption
- Unit 6: Journal entries

Summary and apply your learning

[Section 1 optional exam questions](#)

[Section 1 graded exam questions](#)

[Section 1 further optional exam questions](#)

Section 2

Cost accounting techniques 1

Lesson 1: Marginal costing

Welcome

Unit 1: Contribution

Summary and apply your learning

Lesson 2: Absorption and marginal costing

Welcome

Unit 1: Differences in inventory valuation

Unit 2: Differences in profit

Unit 3: Reconciling profits/losses

Unit 4: Advantages and disadvantages of absorption costing and marginal costing

Summary and apply your learning

Lesson 3: Introduction to process costing

Welcome

Unit 1: Characteristics of process costing

Unit 2: Normal losses and abnormal loss/gain

Unit 3: Joint products and by-products

Unit 4: Evaluate the benefits of further processing

Summary and apply your learning

[Section 2 optional exam questions](#)

[Section 2 graded exam questions](#)

[Section 2 further optional exam questions](#)

Section 3

Cost accounting techniques 2

Lesson 1: Cost classification

Welcome

- Unit 1: Cost units, cost objects and responsibility centres
- Unit 2: Coding costs and revenues
- Unit 3: Cost classification
- Unit 4: Cost behaviour – fixed and variable costs
- Unit 5: Cost behaviour – mixed costs
- Unit 6: Cost behaviour – high/low method

Summary and apply your learning

Lesson 2: Job, batch and service costing

Welcome

- Unit 1: Job costing
- Unit 2: Batch costing
- Unit 3: Service costing
- Unit 4: Service cost analysis

Summary and apply your learning

Lesson 3: Alternative cost accounting methods

Welcome

- Unit 1: ABC – Activity Based Costing
- Unit 2: Target Costing
- Unit 3: Lifecycle costing and the product life cycle

Summary and apply your learning

Lesson 4: Sampling techniques

Welcome

- Unit 1: Random and systematic sampling
- Unit 2: Stratified sampling
- Unit 3: Multistage, cluster and quota sampling
- Unit 4: Probability and expected values

Summary and apply your learning

[Section 3 optional exam questions](#)

[Section 3 graded exam questions](#)

[Section 3 further optional exam questions](#)

Section 4

Analytical techniques in budgeting and forecasting

Lesson 1: Forecasting costs and revenues

Welcome

- Unit 1: Correlation coefficient and coefficient of determination
- Unit 2: Cost behaviour – estimating fixed and variable elements
- Unit 3: Forecasting costs using linear regression analysis

Summary and apply your learning

Lesson 2: Time series analysis

Welcome

- Unit 1: Principles of time series analysis
- Unit 2: Trend
- Unit 3: Seasonal variations

Summary and apply your learning

Lesson 3: Index numbers

Welcome

- Unit 1: Single-item index numbers
- Unit 2: Multi-item index numbers

Summary and apply your learning

Lesson 4: Spreadsheets

Welcome

- Unit 1: Spreadsheets 1
- Unit 2: Spreadsheets 2

Summary and apply your learning

[Section 4 optional exam questions](#)

[Section 4 graded exam questions](#)

[Section 4 further optional exam questions](#)

Section 5

Discounted cash flow techniques

Lesson 1: Compounding and discounting

Welcome

- Unit 1: Simple and compound interest
- Unit 2: Nominal and effective interest rates
- Unit 3: Compounding and discounting

Summary and apply your learning

Lesson 2: Asset investment appraisal

Welcome

- Unit 1: Asset investment appraisal and relevant cash flows
- Unit 2: Annuities and perpetuities
- Unit 3: Cash flow timings

Summary and apply your learning

Lesson 3: NPV and IRR

Welcome

- Unit 1: Net Present Value (NPV) method
- Unit 2: Internal rate of return (IRR) method

Summary and apply your learning

Lesson 4: Payback method

Welcome

- Unit 1: Non-discounted payback
- Unit 2: Discounted payback

Summary and apply your learning

[Section 5 optional exam questions](#)

[Section 5 graded exam questions](#)

[Section 5 further optional exam questions](#)

Section 6

Introduction to budgeting

Lesson 1: The nature and purpose of budgeting

Welcome

- Unit 1: Introduction to budgeting
- Unit 2: The planning and control cycle
- Unit 3: The budgeting process
- Unit 4: Economic environment impact on Budgeting and Sustainability

Summary and apply your learning

Lesson 2: Sales and production budgets

Welcome

- Unit 1: Sales and production budgets

Summary and apply your learning

Lesson 3: Materials, labour and overhead budgets

Welcome

- Unit 1: Raw materials budgets
- Unit 2: Labour budgets
- Unit 3: Overhead budget

Summary and apply your learning

Lesson 4: Master budgets

Welcome

- Unit 1: Cash budgets
- Unit 2: Budgeted statement of profit or loss
- Unit 3: Budgeted statement of financial position

Summary and apply your learning

[Section 6 optional exam questions](#)

[Section 6 graded exam questions](#)

[Section 6 further optional exam questions](#)

Section 7

Further budgeting

Lesson 1: Asset expenditure budgets

Welcome

Unit 1: Asset investment planning and control

Summary and apply your learning

Lesson 2: Fixed and flexible budgets

Welcome

Unit 1: Fixed and flexible budgets

Unit 2: Flexed budgets and simple variances

Unit 3: 'What if' analysis

Summary and apply your learning

Lesson 3: Budgetary control and reporting

Welcome

Unit 1: Significance of variances

Unit 2: Responsibility accounting

Summary and apply your learning

Lesson 4: Behavioural aspects of budgeting

Welcome

Unit 1: Motivation

Unit 2: Managerial incentive schemes

Unit 3: Approaches to budgeting

Summary and apply your learning

Lesson 5: Presenting information

Welcome

Unit 1: Tables

Unit 2: Bar charts

Unit 3: Graphs and pie charts

Unit 4: Reports

Summary and apply your learning

Lesson 6: Data analysis: Averages and dispersion

Welcome

Unit 1: Understanding data

Unit 2: Averages

Unit 3: Measures of dispersion (range, mean deviations and variance)

Unit 4: Measures of dispersion (standard deviation and coefficient of variation)

Summary and apply your learning

Lesson 7: The normal distribution

Welcome

Unit 1: The normal distribution

Unit 2: Normal distribution tables

Summary and apply your learning

[Section 7 optional exam questions](#)

[Section 7 graded exam questions](#)

[Section 7 further optional exam questions](#)

Section 8

Standard costing and variance calculation

Lesson 1: Standard costing

Welcome

Unit 1: Standard costing principles

Unit 2: Standard cost per unit

Summary and apply your learning

Lesson 2: Sales variances

Welcome

Unit 1: Sales price variances

Unit 2: Sales volume variances

Summary and apply your learning

Lesson 3: Materials variances

Welcome

Unit 1: Materials total variance

Unit 2: Materials price variance

Unit 3: Materials usage variance

Summary and apply your learning

Lesson 4: Labour variances

Welcome

Unit 1: Labour total variance

Unit 2: Labour rate variance

Unit 3: Labour efficiency variance

Summary and apply your learning

[Section 8 optional exam questions](#)

[Section 8 graded exam questions](#)

[Section 8 further optional exam questions](#)

Section 9

Overhead variances and variance analysis

Lesson 1: Variable overhead variances

Welcome

Unit 1: Variable overhead total variance

Unit 2: Variable overhead expenditure variance

Unit 3: Variable overhead efficiency variance

Summary and apply your learning

Lesson 2: Fixed production overhead variances

Welcome

Unit 1: Fixed production overhead total and expenditure variances

Unit 2: Fixed production overhead volume variance

Unit 3: Fixed production overhead capacity variance

Unit 4: Fixed production overhead efficiency variance

Summary and apply your learning

Lesson 3: Operating statements

Welcome

Unit 1: Reconciliations under standard absorption costing

Unit 2: Reconciliations under standard marginal costing

Summary and apply your learning

Lesson 4: Analysing variances

Welcome

Unit 1: Investigation of variances

Unit 2: Variance analysis reports

Summary and apply your learning

[Section 9 optional exam questions](#)

[Section 9 graded exam questions](#)

[Section 9 further optional exam questions](#)

Section 10

Performance measurement

Lesson 1: Introduction to performance measurement

Welcome

- Unit 1: Performance measurement - overview
- Unit 2: Critical success factors and key performance indicators
- Unit 3: Balanced scorecard

Summary and apply your learning

Lesson 2: Analysing performance measurement

Welcome

- Unit 1: Measures of profitability
- Unit 2: Measures of activity
- Unit 3: Measures of liquidity and gearing
- Unit 4: Measures of resource utilisation

Summary and apply your learning

Lesson 3: Monitoring performance

Welcome

- Unit 1: Measuring performance in manufacturing industries
- Unit 2: Measuring performance in service industries
- Unit 3: Measuring performance in non-profit and public sector organisations
- Unit 4: Total Quality Management (TQM)
- Unit 5: Assessing managerial performance
- Unit 6: Benchmarking

Summary and apply your learning

Lesson 4: Cost reductions and value enhancement

Welcome

- Unit 1: Cost reduction method
- Unit 2: Value analysis

Summary and apply your learning

[Section 10 optional exam questions](#)

[Section 10 graded exam questions](#)

[Section 10 further optional exam questions](#)

Revision section

Lesson 1: Summing up

- Unit 1: Summing up
- Unit 2: Revision strategy

Lesson 2: Optional practice test

- Unit 1: Optional practice test

Lesson 3: Revision tests

- Unit 1: Revision test 1
- Unit 2: Revision test 2
- Unit 3: Revision test 3
- Unit 4: Revision test 4
- Unit 5: Revision test 5
- Unit 6: Revision test 6
- Unit 5: Revision test 7
- Unit 5: Revision test 8
- Unit 5: Revision test 9
- Unit 5: Revision test 10

Lesson 4: Graded practice test

- Unit 1: Graded practice test

Lesson 5: Exam debrief videos

- Unit 1: Exam debrief videos

Lesson 6: What's next?

- Unit 1: The exam
- Unit 2: What comes next?
